

## NEW PRODUCT RELEASE

### Custom Battery Hoods Now Available

July 16, 2008

Custom Battery Hoods are now available for our ABMS Battery Management System, compatible with both the AB3000 Controller and DataFX Cell Monitor. Several new hood designs are in development and new applications are being added on a continual basis.

Hoods are available for several popular battery types used on aircraft including:

A300  
A318, 319, 320 and 321  
A380  
B737NG  
B747  
B757  
B767

### Hood Features Include:

- Fill Holes for adding Water
- Heavy-Duty Clear Cover with Snap-On Latches
- Precision Replaceable Spring Loaded Cell Probes
- Front and Back Positioning Posts
- Top Cover Insulating Gasket
- Sturdy Cable Strain Relief
- Available in Standard or Reverse Cell Orientation
- Rapid Development Cycle for New Applications
